### Engineers and Dealers in Machinery

We carry the largest stock of heavy machinery on the (Canadian) Pacific Coast. A full line of Boilers and Engines, Steam and Centrifugal Pumps, Hoisting Engines, Compound Geared Swingers, and Derrick Irons for both Stiff Leg and Guy Derricks.

#### We Stock Rails and Railway Equipment

Our Machine Shop is specially fitted to handle Logging Engine, Steam Shovel and Locomotive Repairs.

We transfer Locomotives, Steam Shovels, etc., from rails to scows and vice-versa, having our own depressed track from C. P. R. to the water.

Our twenty ton Electric Travelling Crane covering railway, also runs out over scows, so we are enabled to quote cheap prices for transferring heavy machinery.

We sell the goods and stock the machinery and repairs of the following firms:

American Hoist and Derrick Co., Hoisting Engines and Derrick Irons  
Marion Steam Shovel Co., Steam Shovels and Dredges  
Western Wheeled Scraper Co., Railway Contractors and Graders Machinery  
Climax Manufacturing Co., Geared Locomotives  
Davenport Locomotive Works, Straight Connected Locomotives

# Introductory

THE PUBLISHERS take pleasure in presenting herewith the Twenty-sixth Annual Edition of Henderson's Vancouver Directory, embracing the area of Greater Vancouver, comprising the territory of the city proper, South Vancouver, Point Grey, West Vancouver and North Vancouver.

The Advertising Department presents the names of corporations, firms and individuals who are making Vancouver the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 428 Georgia Street is wanted: refer to street section Georgia Street—glance down to 428, then to the nearest intersection to 428. It will be found that this number is on the south side of the street, three houses east of Homer, between Homer and Richards Streets.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Vancouver, which forms a most efficient wholesale and retail buyer's guide.

The Directory this year contains more pages, but is not as large as the 1918 edition, owing to the fact that thinner paper has been used.

The Vancouver Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its Industries.

The Directory method of estimating population is to multiply the individual names the Directory contains by a common multiple. The figures given below are more in the nature of a calculation. A complete census only can give definite and accurate figures.

## 1919 POPULATION OF GREATER VANCOUVER, 173,283

It is estimated that there are 15,000 Orientals not included in the above.

These figures deal with Greater Vancouver, and are an estimate only, based upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Vancouver have always shown in their publications.

## WATER WORKS

Water works are owned by the Municipality. The source of supply is the mountain stream known as Capilano Creek, which is dammed across at an elevation of 580 feet above sea level, about 8 miles north of the city. The average height of the city is about 100 feet, the extreme height south of False Creek (Mt. Pleasant) being 200 feet. A reservoir of 10,000,000 gallons capacity is situated in Stanley Park at an elevation of 243 feet above extreme high water mark, and adds much to the efficiency and security of the system.

## THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

## System of Numbering Houses

---

The system of street numbering adopted by the city of Vancouver is that known as the Philadelphia or Decimal System. By this system an even hundred numbers is allotted to each block, and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

The odd numbers are on the North and West sides of streets.

In blocks 500 feet or less in length a number is allotted to every 10 feet; in blocks over 500 feet in length to every 15 feet.

All short streets take their numbers from the through streets, and correspond with them.

CARRALL STREET is the dividing and basis line for streets running East and West, starting at 1 and going Eastwards, 100 to the block, and again starting at 1 and going Westwards 100 to the block.

On Cordova Street West and Water Street, the numbers, 200 to 299, are omitted, so as to keep it in unison with the other west-bound streets.

SOUTH OF FALSE CREEK, Ontario Street is the dividing line for East and West streets; this base line is two blocks west of Main Street, and in a direct line with Carrall Street.

BURRARD INLET is taken as a base for streets running South, with 100 numbers allotted to each block.

SOUTH OF FALSE CREEK. Main Street and Granville South start at 1500, and all other parallel streets correspond with them.

# Merchants

A great number of Japanese live in Vancouver and vicinity. Their total incomes last year were many thousands of dollars. A large part of that money is being spent in Vancouver.

ISN'T IT WORTH WHILE ADVERTISING TO REACH SUCH A COMMUNITY WHICH YEARLY SPENDS SUCH A LARGE AMOUNT?

Practically all the Japanese read their own newspaper—it gives them special news about their home country—is printed in their own language—and puts the news in a way they can best understand it.

THE CONTINENTAL DAILY NEWS (TAIRIKU-NIPPO) REACHES THE JAPANESE POPULATION OF BRITISH COLUMBIA — YOUR ADVERTISING IN ITS COLUMNS WILL PULL BUSINESS — IT IS THE ONLY WAY YOU CAN REACH THESE PEOPLE.

Send us your advertisement. We have an expert Anglo-Japanese advertising man on our staff. He'll translate your "copy" in a form which will appeal to Japanese.

WRITE OR PHONE US ABOUT ADVERTISING RATES.

*To get Japanese trade you  
must put your business before  
him in his own language.*

**T**HERE are a great number of Japanese in British Columbia. Last year their total incomes were many thousands of dollars. Much of that money was spent here. The firms that secured Japanese business were those that appealed to Japanese in their own language.

**WE REACH THE JAPANESE FOR YOU—PRINT  
BOOKLETS, CIRCULARS AND ADVERTISING  
MATTER OF EVERY KIND IN JAPANESE.**

**OUR ANGLO-JAPANESE ADVERTISING  
EXPERT PUTS YOUR MESSAGE IN TELLING  
WORDS—IN SUCH SHAPE AS IT WILL  
APPEAL TO THE JAPANESE.**

**I**F you desire we will take full charge of the preparation and distribution of your advertising among the Japanese. Our knowledge of their location is accurate. We can carry out your campaign with effective results.
